

IsLeapYear

The method IsLeapYear check whether a year is a leap year or not.

In the following diagram, the algorithm IsLeapYear(int year) is visually represented.

The method contains three *if statements* which are represented by the yellow squares. The validation (if true or false) is represented by the green diamonds, which leads to the outcome of the given *if statements*.

The blue circles represent the final outcome (termination) of the program. Hereby the answer if the year is a leap year or not.
